

## Unit 2: Simple Words and Sentences

A word is a group of letters that has a meaning. Cat is a word. Tree is a word. Run is a word.

A sentence is a group of words that makes a complete thought. A sentence starts with a capital letter. A sentence ends with a full stop.

Here are some simple sentences.

The cat sits on the mat.

The dog runs fast.

I can see the sun.

We eat fruit every day.

The bird has a nest.

Read these sentences out loud. Can you hear where the sentence starts and stops?

Now let us look at describing words. Describing words tell us more about something. They are also called adjectives.

The big dog. Big is a describing word.

The small bird. Small is a describing word.

The red flower. Red is a describing word.

The cold water. Cold is a describing word.

Try making your own sentences. Think of something you can see. Now describe it. Put it in a sentence. You are writing.

Reading and writing every day will make you stronger. Even one sentence a day is progress.
